  - Truck Pack 45"L x 22.5"D outside dimension
  - Heavy Duty 3.5" casters(qty. 8) -2 locking
  - Custom Etha/Ester foam padding
  - Stacking Caster Cups

## DUAL SIDE LOADED VL-3000 CASE

The Dual Side Loaded (DSL Series) case design allows for ease of loading and unloading of larger fixtures. 3/4" Birch yolks support the electronics, while the lower head is supported by 2lb. ester and etha foam blocking. This functional design splits in the center exposing two compartments, each with a hinged lid supported by heavy duty latch stays. The custom foamed lid supports allow the fixtures to travel with or with out clamps. The DSL can be configured for most moving lights, please consult your Calzone Case design specialist for further details.
